CONNECT & DRIVE

Powerful. Connected. Convenient. This is what Pioneer car entertainment is all about. We offer more ways than ever before to enjoy your life on the road to the max. With more and better connection possibilities to integrate your smartphone. With smart, easy-to-use apps that connect seamlessly with our navigation units. On top of that, you can enjoy the superior audio and video quality that made Pioneer famous. Whatever you drive, whatever you play, we've got a full range of options to kit out your car. You're always connected with Pioneer.

HEAD-UP DISPLAY

GET YOUR FOCUS UP

Simulated picture

With the Pioneer NavGate HUD (Head-Up Display), your focus is always on the road while driving. The device connects to your iPhone or Android smartphone and projects navigation, traffic and other relevant information just above your line of sight. All displayed information is clear and easy to read. The unit works with two smartphone apps, iGO primo and CoPilot, which feed the HUD with live navigation instructions.

Visit www.pioneer.co.uk/navgatehud to find out more.

Safe & convenient smartphone accessory

- ✓ Keep your eyes on the road at all times
- ✓ Reduce the time needed to refocus; this can reduce eye fatigue
- ✓ Enjoy a panoramic widescreen view (29" virtual image)
- ✓ See traffic info on a screen, not on a map
- ✓ Get even clearer directions at motorway junctions
- ✓ See navigation directions at all times – even during a phone call

application

APPRADIO

APPS ON THE MOVE

Take your smartphone on the road and put your apps front and centre with Pioneer AppRadio. It displays compatible smartphone apps on the large 7-inch capacitive touchscreen, easy to see, touch and control. Enjoy your favourite music, videos and maps while the smartphone battery charges. With entertainment and connectivity solutions like Bluetooth audio streaming, AppRadio Mode and MirrorLink, you'll stay connected wherever you drive.

For further details on AppRadio Mode, go to www.pioneer.co.uk/appradiomode.

AppRadio MODE

Pioneer's innovative AppRadio Mode technology allows you to control various apps on your iPhone 5/5c/5s/4/4s or on compatible Android phones directly from the touchscreen. You can enjoy music, photos, videos, live traffic information, parking finder, web browsing and internet radio straight from your smartphone apps (see www.pioneer.co.uk/appradiomode). They're all right where you need them, on a bright, clear screen.

Smartphone connectivity

To check the connectivity of your smartphone with your Pioneer equipment, scan this QR code or navigate to www.pioneer.co.uk/connectivity. This page will be continually updated with the latest solutions for your smartphone.

SPH-DA110

AppRadio Car Receiver.

Works with iPhone 5/5c/5s/4/4s and Android phones. 7.0" capacitive touchscreen, GPS and Bluetooth.

Built-in AppRadio Mode and MirrorLink.

NAVIGATION DVD AV SYSTEMS

TRULY SMART NAVIGATION

The new NavGate range is the premier combination of powerful and accurate Pioneer navigation, seamless smartphone integration and full-on multimedia entertainment. Plus, it's simple to use and fit in your car. Using the AVICSYNC app on your smartphone, you can take advantage of easy map updates and live traffic information, right on the large touchscreen. Stay fully connected via Bluetooth, MirrorLink and HDMI. Leave it to Pioneer to take in-car navigation solutions, convenience and enjoyment to the next level.

Android phones. 6.1" touchscreen,
AVICSYNC and Bluetooth.
Built-in MirrorLink.
Supports Siri Eyes Free.

AVICSYNC

AVICSYNC app: live connected services to enhance your navigation experience

Get truly connected navigation with Pioneer's new NavGate line-up. Via AVICSYNC, you can update maps and use online location-based services* from your smartphone: such as TomTom Traffic updates, Parkopedia dynamic parking, CustomWeather and local search. Use AVICSYNC anywhere, even outside your car, to plan your trip. Add favourites and check trip logs and history. When back in the car, data from your smartphone is automatically synchronised for totally seamless operation. Additionally, with the Naviextras** service, you can update maps and add premium content from your PC onto an SD card. So you choose what and how to update – whatever suits your situation best.

* Go to www.pioneer.eu/avicsync. AVICSYNC online services require a customer subscription and are available for purchase through the AVICSYNC app. Not all online services are available in all countries.
** Go to <http://pioneer.naviextras.com/> – the custom Naviextras page for AVIC-F60DAB, AVIC-F960DAB, AVIC-F960BT and AVIC-F860BT. For AVIC-F260 and AVIC-F160, go to www.naviextras.com.

MirrorLink

MirrorLink, an in-vehicle connectivity standard created by the Car Connectivity Consortium (CCC), enables you to connect your compatible smartphone to a Pioneer compatible in-dash receiver via a USB cable to access certain music and map applications for a more convenient and safer in-car experience.

Pioneer's MirrorLink Ready car units can be connected to a compatible smartphone using the optional MirrorLink Box CD-ML100 or CD-MU200 Cable (check compatibility chart, P.21).

DVD AV SYSTEMS

NO-COMPROMISE ENTERTAINMENT

Now you can have it all. You can play whatever you like from any source. Just connect your smartphone and let it come to life on the large WVGA touchscreen. Easy-to-use functions, such as Bluetooth audio streaming and wireless music browsing boost convenience. Add navigation using the optional AVIC-F260 if needed. This is entertainment, your way.

DIGITAL RADIO

THE CLEAR CHOICE

Enjoy the convenience and superb audio of digital radio in your car. Pioneer DAB products with a built-in DAB+ tuner give you crystal-clear radio – from your favourite FM stations and a wide range of digital stations. What's more, you're in control of how you listen: Pioneer's unique Time Shift functionality allows you to pause and rewind live digital radio. The choice has never been clearer.

- ✓ **More choice:** Get access to a wider variety of stations – the FM stations you know plus digital-only stations. So you can enjoy more of the music you love.
- ✓ **Easy to tune:** Find the station you want by name, not by number. Plus, track and artist listings are displayed on-screen.
- ✓ **Don't miss anything:** Pause and rewind live digital radio with the Time Shift function.
- ✓ **Crystal-clear sound:** Enjoy your favourite radio stations in CD-like audio quality – without signal noise.
- ✓ **Interference-free reception:** There's no interference, even when station frequencies overlap.
- ✓ **Faster station switching:** Several channels can be received per network at the same time, so switching between stations is instant.

For more information, please see www.pioneer.co.uk/dab.

DAB+ antenna (AN-DAB1/ CA-AN-DAB.001)

This small 'Active' stick-on internal glass-mount antenna allows you to enjoy digital broadcasting while using your Pioneer headunit with built-in DAB+ tuner.

Applicable to all products on these pages.
MVH-8300BT is only iPod/iPhone compatible.

DIGITAL MEDIA RECEIVERS

MOBILE MUSIC LIBRARY

Whether you use an iPod, iPhone, Android or other portable device, you get plug and play connectivity via USB. Bluetooth allows you to enjoy wireless audio streaming, hands-free calling and voice control. Or create the ultimate driving soundtrack with Pioneer's MIXTRAX technology. It's never been easier to take your favourite tracks on the road.
