Power

Power On: Open the charging case (with charge), the headphones will turn on automatically.

Power Off: Put the headphones back into the correct slot of the charging case and close the lid, they will automatically turn off and start charging.

* Above functions are available for either earbud in individual or stereo mode.

Headphones Pairing

The Left and Right headphones will automatically pair to each other after the lid is open when they are in the case (with charge).

Bluetooth Pairing To The Device

To connect to your device for the first time, turn the headphones on to enter the pairing mode, the Right headphone will flash in white alternatively, the headphones will enter a standby mode if not paired to a device within 5 minutes.

* After the first successful pairing, the headphones will automatically connect to your device.

* Above functions are available for either earbud in individual or Stereo mode.

To pair the headphones to a new device, simply place them into the charging case and triple tap the pairing button, then click "1MORE ComfoBuds Mini" in the new device's pairing list to connect.

Charging

1. To charge the case with Type-C cable.

A full charge will take around 90 minutes.

The LED light of the charging case will indicate different battery statuses.

* The headphones are certified by Qi wireless charging, please use a Qi certified charging pad to ensure charging safety and efficiency.

2. To charge the headphones with the case.

Put headphones in the correct slot until it locks in via the magnet. The white LED will flash slowly while headphones are charging.

A full charge will take around 70 minutes, the red LED turning off indicates the charging is complete.

Battery Status Display in 1MORE MUSIC APP

Battery status of headphones and charging case will be displayed in the 1MORE MUSIC APP.

Battery Notification

Low Battery Alert: When there is 25-30 minutes of use time left, you will hear a voice prompt.

When the case battery is too low to charge the earbuds, the LED indicator will flash red.

Switch Listening Modes

The default setting of the headphones is "ANC Off", long press the touch control area of the earbuds to switch between "ANC Off", "ANC-Strong" and "Pass-through".

* Multiple noise cancellation options are available via "1MORE MUSIC APP".

1. ANC-Strong: "Super ANC" certified by SGS, can eliminate the most surrounding noises.

2. ANC-Mix: To reduce the noises mainly caused by the ticks of human voices.

3. WNR (Wind Noise Resistance): To lessen the annoying wind noise.

Touch Controls

Phone Call: Answer: Double tap; End call: Double tap.

Voice Assistant: Triple tap (Bluetooth on and not in a call).

Playback: Play/Pause: Doubletap.

* Above functions are available for either earbud in individual or stereo mode.

* To decline a call, control the music playback or volume adjustment, please operate in "1MORE MUSIC APP" or the connected mobile phone device.

* Above functions may vary with different devices.

Smart Playback

The IR sensor will detect the wearing status in real time. It automatically pauses music when taking off your headphones, and will resume once you put them back on.

Smart Playback can be turned off via 1MORE MUSIC APP.

Personalized Sound Enabled by SoundID

1MORE MUSIC APP features personalized sound technology - SoundID from Sennheiser. Based on a professional music-producing reference standard, SoundID serves simple A/B tests to deliver a sound profile based on listener's individual preferences. Click "SoundID" in the App to maximize your listening experience on the ComfoBuds Mini with a personalized sound profile.

Soothing Sounds

Click the "Soothing Sounds" to enter the playlist.

Click "+" to select the sound to be downloaded to your headphones for listening.

Smart Playback

Click the timer icon in the song page to set up the playtime.

Extra Functions

1. If only one earbud can be connected to the device, please put the two earbuds back into the case and triple tap the pairing button, then click "1MORE ComfoBuds Mini" in the device pairing list to connect to your device.
2. Restore Factory Settings: Put both Left and Right earbuds into the case, triple tap the pairing button, the earbuds will initiate pairing to each other again.
3. Clear The Pairing Records: Put both Left and Right earbuds into the case, press and hold the pairing button for 8 seconds, the pairing records will be cleared.
4. OTA Firmware Update: It can be synchronously upgraded via the 1MORE MUSIC APP while the Left and Right earbuds are connected to each other with at least 50% battery.

* Functions of the 1MORE MUSIC APP may vary with different devices or operating systems. For more details, please contact our customer service.

1MORE (1) Year Limited Warranty

1MORE warrants to the original retail purchaser that this product is to be free from defective materials and workmanship for a period of one year from the date of purchase if it is properly used and maintained. If this product proves defective in either material or workmanship, 1MORE, at its option, will (a) repair the product with new or refurbished parts, or (b) replace the product with an equivalent new or refurbished product, at no charge for parts or labor, if the product model is no longer available and cannot be repaired effectively or replaced with an identical model. 1MORE at its sole option may replace the unit with a current model of equal or greater value. In some cases, modification to the mounting surface may be required where a new model is substituted. 1MORE assumes no responsibility or liability for such modification. TO OBTAIN A REPAIR OR REPLACEMENT UNDER THE TERMS OF THIS WARRANTY, PLEASE RETURN TO THE ORIGINAL DEALER FIRST AND THE ORIGINAL DEALER SHALL REPAIR THE PRODUCT WITH NEW OR REFINISHED PARTS OR REPLACE THE PRODUCT WITH AN EQUIVALENT NEW OR REFINISHED PRODUCT. You will be required to submit a proof of purchasing details, including but not limited to a receipt or sales invoice. Return shipping for exchanges/repairs is the sole responsibility of the original retail purchaser.

Limitations:

- * This limited warranty does not cover the failure of the product resulting from improper installation, misuse, abuse, accident, neglect, mishandling, or wear from ordinary use or environmental deterioration.
- * This limited warranty does not cover cosmetic damage, including paint damage, or consequential damage to other components or premises which may result for any reason from the failure of the product.
- * This limited warranty is null and void for products not used in accordance with 1MORE's instructions.
- * This limited warranty is null and void for products with altered or missing serial numbers and for products not purchased from an AUTHORIZED dealer.
- * This limited warranty terminates if you sell or otherwise transfer this product to another party.

We Appreciate Your Business

We know you will enjoy new 1MORE headphones as much as we do. At 1MORE, we value your satisfaction. If you would like more details on this product or any of our other products, please visit us online by scanning the QR code. Go to www.1more.com and sign up for VIP, and 1MORE will treat you like one.

Tips

1. Please read this instruction manual carefully and retain for future reference.
2. Please fully charge the battery before first use.
3. If the headphones have been unused for more than 3 months, we recommend that you charge them. This will improve battery capacity.
4. Only use charging cables and adapters that are FCC (Federal Communications Commission) approved.
5. In dry environments, static electricity may numb your ear. This is not related to the quality of the product.
6. Prolonged use at high volumes may cause hearing damage.
7. Do not use Active Noise Cancellation mode in unsafe environments or when you need to hear the outside.

Safety Information

1. Never disassemble the headphones. There are no user-serviceable parts inside.
2. Do not expose the headphones to temperatures below 32°F (0°C) or to temperatures above 113°F (45°C).
3. Do not use the headphones in a thunderstorm storm. This could prevent the headphones from working properly, and also increase your chance of being electrically shocked.
4. Do not use oil or any volatile liquid to clean this product.
5. Do not listen at high volumes for extended periods of time.
6. Do not use the headphones in traffic. Do not use the headphones any time it would be dangerous to be unaware of noises around you.
7. Adult supervision is required for children of age 6 and under.
8. If you don't feel comfortable after wearing the headphones, please refer to an aurist for advice on whether in-ear headphones are suitable for you.

FAQ

1. Why the headphones cannot be turned on?
Please charge the headphones for enough battery life. If not, please charge them for at least 30 minutes.
2. Why the headphones cannot connect to my cellphone, or take a long time to connect?
1) If headphones cannot pair normally when power on. Open the case, triple tap the pairing button to initial searching for Left & Right pairing, and then click "1MORE ComfoBuds Mini" in the device pairing list.
2) To pair the headphones to a new device, simply place them into the charging case and triple tap the pairing button, then click "1MORE ComfoBuds Mini" in the new device pairing list to connect.
3. Why the headphones cannot play successfully connecting to my Android device?
After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Media Audio" option is on.
4. Why there is no sound from the headphones while making phone calls after successfully connecting to my Android device?
After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Phone Audio" option is on.
5. Why the Bluetooth connection is not stable and causes some interruptions?
1) Try shortening the distance between your headphones and device. Avoid solid barriers in between.
2) Please keep away from strong interference sources, such as Wi-Fi and GPS.
3) Please make sure the Bluetooth antenna of your device is not blocked.
6. Why some control functions do not match those in the manual while using third party music/video player Apps?
Your operating system and the third party music/video player apps may have different settings for the control functions. We recommend that you use the music/video player apps that your device has originally provided.

Safety Caution

Do not expose batteries or battery packs to excessive heat such as sunshine, fire or the like.

All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

CE Hereby, Tinlab Corporation declares that the radio equipment type ES603 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.1more.com

UK CA Hereby, Tinlab Corporation declares that the radio equipment type ES603 is in compliance with Radio Equipment Regulations 2017. The full text of the UKCA declaration of conformity is available at the following internet address: www.1more.com

RF exposure information: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. Radiation Exposure Statement Power is so low that no RF exposure calculation is needed.

Declaration for EU Compliance
Bluetooth: 2402-2480 (ERP: Left 3.0dBm/Right 4.5dBm)

Warning

Replacement of a battery with an incorrect type that can defeat a safeguard (such as catching fire, explosion, leakage of corrosive electrolyte, etc).

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.

Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas; and a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

⚡ The symbol indicates DC voltage.

♻️ RECYCLING

The product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

⚠️ To prevent possible hearing damage, do not listen at high volume levels for long periods.

FCC

The SAR limit of USA (FCC) is 1.6 W/kg for head averaged over one gram of tissue. Device types ES603 (FCC ID: 2A5DSE603), FCC ID: 2A5DSE603J) has also been tested with 0.1mm against this SAR limit.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to the equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC regulatory conformance

This device complies with CAN ICES-003 (B)/NMB-003(B) and CAN RSS-216 / CNR-216. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la norme CAN ICES-003 (B)/NMB-003 (B) et à la norme RSS-216 / CNR-216. Cet appareil contient des émetteur(s) / récepteur(s) exempt(s) de licence qui sont conformes aux RSS exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes:
(1) Cet appareil ne doit pas provoquer d'interférences.
(2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

The SAR limit of Canada (ICES) is 1.6 W/kg for head averaged over one gram of tissue. Device types ES603 (IC:24662-ES603R, IC:24662-ES603J) has also been tested with 0.1mm against this SAR limit.

Name: Wireless Earphones Model: ES603 Headphone Weight: 3.7 g Case Weight: 34.3 g Product Weight: 42.3 g Headphone Size: 17 x 15 x 13 mm Case Size: 55.5 x 50 x 24.5 mm Headphone Battery Capacity: 34 mAh Case Battery Capacity: 440 mAh Headphone Charging Time: 70 mins Case Charging Time (With Cable): 90 mins Fully Charged Playtime (ANC On): Headphones: 8 hours Headphones + Case: 30 hours Fully Charged Playtime (ANC Off) Headphones: 6 hours Headphones + Case: 24 hours Headphone playtime (BLE): 8 hours Impedance: 32 Ω Wireless Range: 10 m Bluetooth: Bluetooth® 5.2 Bluetooth Protocol: HFP / A2DP / AVRCP Input: 5V/40mA Working Temperature: 0°C - 45°C Frequency Band: 2.400 GHz - 2.4835 GHz

The specifications are acquired from laboratory tested data.

* The playtime, tested under the laboratory condition of AAC format and 50% volume, may vary with different device setting, environments, usage and other factors.
